OUR MISSION

“ Our mission is simple, to continue to search the world for quality organic products – adding flavour, nutrition and a sprinkle of **Louianna joy** to the lives of our valued customers, across the globe. ”

Our focus is centred on:

- Organic products that meet stringent quality standards
- Organic farmers who work in harmony with nature
- Organic farming to keep rural communities healthy

THE LOUIANNA LOVE STORY

Luigi and Anna, a tale of love and olive oil in Molise, Italy

OUR STORY BEGINS in the mountainous fields of Southern Italy in the year 1927, when Luigi Spedaliere met Anna Paulozza during the olive harvest. Over the years, the couple's love blossomed and in 1934 they were married. Soon after, war broke out in Europe and Luigi left to serve in the army. Concerned for his new bride's well-being in his absence, Luigi purchased several pieces of land for olive farming as a source of income. Fortunately, Luigi returned from the war several years later to his beloved Anna. The two then immediately started a family and went on to have five beautiful children!

When times became tough in Southern Italy after the war, Luigi and Anna decided to emigrate to Canada in the hopes of a better life for their growing family. In Canada, the Spedaliere family grew and prospered. Their son, Vincent married and started a family of his own with two boys and a girl. The two boys were fascinated by their grandparents' tales of the old country. As young adults, their curiosity about their roots piqued and they decided to begin the journey of **reviving the story of their heritage with the start of Louianna.**

THE START OF OUR JOURNEY

A dream to revive our heritage, and introduce it to the world

The Spedaliere family was determined to produce one of the **finest organic extra virgin olive oils in the world**. And after years of hard work, Louianna Extra Virgin Olive Oil was born. In addition to achieving **organic product certification**, subsequent rigorous inspection resulted in the prestigious **PDO – Protected Designation of Origin** (Denominazione d'Origine Protetta) from the European Union.

Today, Louianna's PDO Extra Virgin Olive Oil is used by world renowned chefs, and commonly seen on The Food Network Canada's hit TV series, Top Chef Canada. More importantly, families across Canada, United States and the United Kingdom enjoy the quality and flavour of Louianna's products everyday.

EXPERIENCE THE DIFFERENCE

ONE OF THE SELECT FEW

Being both Certified Organic and Certified P.D.O., Louianna is one of the select few products in the marketplace, offering this unique ranking of value

The European Commission grants a Protected Designation of Origin (PDO) to regional products originating in a given region, provided that the quality or other characteristics of the product are essentially attributable to the particular geographical environment of the place of origin.

The geographical environment encompasses natural and human factors, such as climate, soil conditions, topography, local know-how, etc. Products bearing this label must be produced, processed and prepared in a certain geographical area using a recognized and controlled method. For example, the Molise region where we grow our olives is profoundly special, as it is an area that has extremely ancient origins.

MORE ABOUT OUR EXTRA VIRGIN OLIVE OIL

What is olive oil?

- Olive oil is pure organic obtained from pressed fresh whole olives and is produced mainly in the Mediterranean region. Olive oil is rich in monounsaturated fatty acids that are a healthy dietary fat in comparison to saturated and trans fats. In addition, olive oil has powerful antioxidant and anti-inflammatory properties.

Uses of olive oil?

- Olive oil has been consumed and applied directly to the skin for centuries. Olive oil is rich in monounsaturated fats and has anti-inflammatory properties.
 - Due to this, olive oil is used to prevent and treat cardiovascular diseases, cancers, and arthritis. In addition, the use of olive oil as the main source of fat has been shown to reduce the occurrence of diabetes and reduce the risk of Alzheimer's disease and depression.
 - The powerful antioxidant properties of olive oil are beneficial to fight free radicals to prevent cellular damage. The high linoleic acid content in olive oil makes it an efficient moisturizer for skin and treatment for skin inflammation.

Olive oil is known to treat:

- | | |
|-----------------------|-------------------------------|
| • Heart disease | • Alzheimer's disease |
| • High blood pressure | • Headaches |
| • High cholesterol | • Increase elasticity of skin |
| • Diabetes | • Moisturizing skin |
| • Arthritis | • Skin inflammation |
| • Constipation | • Dry scalp |
| • Weight loss | • Split hair ends |

Benefits of the ingredients in our olive oil:

Alpha-Lipoic Acid

- Alpha-lipoic acid is an antioxidant that neutralizes free radicals and prevents cellular damage. It also functions to restore the levels of vitamin C and E. Alpha-lipoic acid is used for the treatment of diabetes, chronic fatigue, HIV, cancer, neurodegeneration, Lyme disease, and glaucoma.

Dimethylaminoethanol

- Dimethylaminoethanol is an organic compound with anti-ageing benefits. Dimethylaminoethanol helps to firm and tighten the skin, which can give skin a more defined and youthful appearance.

Polyphenols

- Polyphenols are natural phytochemical compounds with beneficial antioxidant effects. The most common phenol found in olive oil is oleocanthal that helps to lower the risk of Alzheimer's disease, and control metastatic breast and prostate cancers. Furthermore, oleocanthal has strong anti-inflammatory activity that is similar to ibuprofen.

Phytosterols

- Phytosterols are plant sterols that are similar to cholesterol. A diet rich in phytosterols produces the risk of cardiovascular diseases, since it reduces the absorption of cholesterol.

Vitamin E

- Vitamin E has a high content of antioxidants and is beneficial in treating and preventing heart disease, diabetes, cancer, respiratory infections, chronic fatigue, memory loss, and premenstrual discomfort. In addition, vitamin E is very powerful in improving the condition of your skin by lightening stretch marks, boosting collagen production, and preventing wrinkles.

Vitamin K

- Vitamin K plays a major role in blood clotting and is used to prevent blood thinning. It can also be applied to the skin to remove scars, stretch marks, and spider veins.

MORE ABOUT OUR OREGANO OIL + VITAMIN D SOFTGELS

Health benefits of oregano oil

The main health benefits of oregano oil can be divided into three categories:

- 1) Antimicrobial, antiviral, & anti-fungal properties
- 2) Antioxidant and anti-cancer properties
- 3) Anti-inflammatory properties

Antimicrobial, antiviral & anti-fungal effects

- It has strong antimicrobial properties that make this oil very effective against bacterial, viral, parasitic, and fungal infections.
- Can be used to treat respiratory tract infections, such as colds, flu, sinus infections, asthma, bronchitis, etc.
- In addition, can be used to treat digestive problems like abdominal cramps, bloating, irritable bowel syndrome, among others.

Antioxidant and anti-cancer effects

- A powerful antioxidant that neutralizes free radicals produced in our cells, and therefore prevents cellular damage.
- Prevents the risk of developing arthritis, atherosclerosis, and some cancers.

Anti-inflammatory effects

- Several studies support the anti-inflammatory, tissue remodelling and anti-cancer effects of oregano oil. It is a promising candidate for use in skin care products with anti-inflammatory and anticancer properties.

Health benefits of vitamin D

Prevents bone disease:

- Vitamin D helps in the absorption of calcium and therefore helps maintain healthy strong bones and prevents bone diseases, such as osteoporosis.

Improves mood:

- Improves symptoms of Seasonal Affective Disorder by maintaining the activity of the neurotransmitter serotonin.

Absolutely delicious

Reviewed in Canada on July 21, 2020

Wonderful product. Very flavorful, great rich viscosity and value for the dollar far beyond what we expected. Highly recommended for that salad "punch" or on fresh mozzarella.

Best Balsamic I can find!

Reviewed in Canada on November 27, 2021

Its thicker than a regular balsamic and is excellent for drizzling over salads, has an awesome pouring spout. I can't find a better balsamic...I limit its use for salads because of the size of the bottle and cost.
